MEMORANDUM FOR: Director of Personnel STATINTL

SUBJECT: [REDACTED]

1. As I mentioned to you at lunch today, [REDACTED] came to see me this morning to say that she would like my help in finding a spot in the Agency more in line with her interests and qualifications than the position she now occupies. She made the following points:

a. She has had 13 years of White House experience, much of which was in congressional liaison work when she was the [REDACTED]

b. In her present position she feels completely out of place, having no interest or qualifications in the technical activities to which she is assigned.

c. She would hope either sooner or later something more in line with her desires will materialize, possibly in the Office of Legislative Counsel or some related component.

2. I told her we foresaw no vacancy in my Office and that things were tough all over but I would check around to see what the possibilities were.
